

## HONOR HISTORY AND THE ENVIRONMENT

Make a INOX replica, wider if you wish so.  
Keep the beautiful balanced swing and recycle the foundations.

## IMPROVE FUTURE MOBILITY

Restore the crossing, enhance it with glass paneling for those who do not have their own. Electrics, hybrids, hydrogen, muscular; there is plenty of space!

## CREATE A DESTINATION

Make it seaworthy, a terrace on the sea.  
Sharp, dynamic, resistant, chic; the place to be.
